

OM4 multimode pigtails are used to connect high speed networks like gigabit ethernet, fast ethernet and ethernet. The multimode pigtail buffer conforms to IEC, EIA TIA and Telcordia standards. The multimode pigtails are terminated with standard connector which gives optimum optical performance.

Feature

- Good repeatability
- Low smoke zero halogen (LSZH) buffer
- Easy installation
- Good temperature stability
- Tensile strength
- Available in standard 12 colors

Application

- Telecommunication system
- LAN, CATV
- Optical access network
- Data transmission
- Patch panels, wall boxes
- Passive optical network

Specification

| Specifications | Parameters |
|-------------------------|--------------------------|
| Connectors Types | SC/ST/FC/LC/MU/E2000/DIN |
| Insertion Loss (dB) | ≤ 0.3 |
| Repeatability (dB) | ≤ 0.2 1000Times |
| Working Temperature(°C) | -40 ~ +85 |
