

Bundle Fan-out Fiber Optic Pigtail is a piece of fiber optic cable with only one fiber optic connector on one side of the cable, there are singlemode and multimode fiber optic pigtails. They typical use is to link the fiber optic cable with fiber optic equipment, while the other side of the pigtail is melted together with the fiber cable, by melting together the fiber glasses, it can reach a minimum insertion loss.

Feature

- Good repeatability
- low insertion loss
- High return loss
- Good temperature stability
- Tensile strength

Application

- Telecommunication system
- LAN,CATV
- Optical access network
- Data transmission
- Testing equipment

Specification

Specifications	Parameters
Fiber core	2~48
Insertion Loss (dB)	≤ 0.3
Repeatability (dB)	≤ 0.2 1000Times
Working Temperature (°C)	-40 ~ +85
