

Adaptor is a mechanical device designed to align fiber optic connectors. It contains the interconnect sleeve that holds two ferrules together. Our MU fiber adaptor are at least half the size of the standard SC adaptor. They offer twice the port density, a new solution for high performance telecommunications networking.

Feature

- Low insertion
- Excellent exchangeable
- High stability
- Easy to use
- High reliability

Application

- Telecommunication system
- CATV/LAN
- FTTH/FTTX
- Data transmission
- Fiber measure and test

Specification

Specifications	Parameters
Insertion Loss (dB)	≤ 0.2
Repeatability(dB)	≤ 0.1 500Times
Tensile Load (KG)	≥ 7
Operating Temperature (°C)	-40~80
