

SMA fiber adaptor has lower accuracy requirement than SC type. Most SMA fiber optic patch cords are multimode patch cords, and thus SMA fiber optic adapters are mostly multimode version as well. This range of fiber optic assemblies is mostly used in optical communications system and various test instruments, especially on military equipment and medical equipment.

Feature

- Low insertion
- Excellent exchangeable
- High stability
- Easy to use
- High reliability

Application

- Telecommunication system
- CATV/LAN
- FTTH/FTTX
- Data transmission
- Testing instruncture

Specification

Specifications	Parameters
Insertion Loss (dB)	≤ 0.2
Repeatability(dB)	≤ 0.1 500Times
Tensile Load (KG)	≥ 7
Operating Temperature (°C)	-40~80
